REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of New Castle:

I herewith submit to you my tenth report as superintendent of your schools.

In New Castle with its one hundred per cent support of its schools, it seems unavoidable that there shall be a continuous improvement in its schools from year to year. The toilet situation of two years ago is no longer an object of criticism. The lighting of the school rooms, satisfactory on a fair day, was unsatisfactory when artificial light was necessary. This has been corrected by increasing the size of the bulbs used. Several new wall maps have been purchased as aid in the teaching of geography and history.

As educators are increasing their knowledge of the ways in which the mind of the child works it is inevitable that improved methods of teaching should be discovered. By continually analyzing present teaching, the less satisfactory procedures are discovered and eliminated. The strong points are developed and improved. In this manner the good of the old is kept and if possible improved while newer procedures are discovered. These changes require new material. In the smaller towns we plan to make present books and equipment last until worn out. The average life of a text book in daily use is four and one-half years. As these are replaced we plan to get the most approved material. In this way no money is wasted in replacing books that may be out of date but that same money is spent in modernizing equipment. The books in the New Castle schools have been completely modernized within the past eight years.

Concerning the work of Miss Trefethen and Miss Jackson the parents of the children are familiar. New Castle parents are immensely interested in their schools.

They know that both teachers are doing all that is possible to develop the future citizens under their care to a life of usefulness and unselfish loyalty to the nation, the town and their fellows. We are unusually fortunate in our teachers.

The boys and girls in the upper grades have done some really good work in their sewing and wood working classes. I believe this is valuable as furnishing an introduction to the manual arts of the higher schools. I could wish that better quarters might be available for this work. Perhaps a remodelling of the present supply room could be easily done. By this means a satisfactory closet for the tools would be available. Two or three benches could be installed and thus lend the dignity to the work that manual activity should have.

The report of Mrs. Sheehy, our school nurse, is printed in this report. I bespeak its careful reading. More and more is health, both physical and mental, becoming a chief objective of the public schools.

The rhythm band of New Castle is famous among school and townspeople. For this valuable training Mrs. Poore and Miss Trefethen are responsible. The children of New Castle are taught to love and appreciate music. This will be invaluable to them throughout their lifetime. The public entertainment given each year by the teachers and children of the New Castle schools is the result of hard work and much training. The results show this. It should be a source of pride to the town that its children evidence the ability shown at this time. It may be valuable for the children but it certainly means an evening well spent for the parents and citizens.

The schools of this Union are cooperating with the Surplus Commodities Distribution by placing at the disposal of our pupils such products as may be available for us. While the time of delivery and kinds of produce are not uniform, the fruit received in each case

has proven of value. Oranges, apples, grapefruit juice, peaches, etc., can always be used. We shall continue this service as long as it is available.

The usual statistical reports follow. They show an increase in September registration from the 38 of last year to 42 of the present year. Owing to the sickness of last year the attendance dropped from 96 to 94. Such epidemics cannot be avoided. The percentage is still good. It is interesting to note the large number of "visits of citizens."

It is always a pleasure to visit your school. It is a place of busy, happy people. While the teachers are primarily responsible for this, I believe that the help and advice received continually from you as a school board has much to do with its success. I wish to express our appreciation for this.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools.

February 7, 1940.
